

# Remove the project information

If you need to remove the project data you have to go to the Administration > Project.

1. Select the project to reset.

The screenshot shows the Jira Administration interface. At the top, there is a search bar labeled 'Search JIRA admin' and a navigation menu with 'Add-ons' highlighted. Below the navigation menu, there are sections for 'ATLASSIAN MARKETPLACE' and 'JIRAFFE'. In the 'JIRAFFE' section, 'Projects' is highlighted. On the right, a table titled 'Jira Projects' lists the 'Jiraffe' project with a bin icon in the 'Name' column.

Name	Status	Theme
Jiraffe	Enabled	Pirates

2. Make click in the bin icon

The screenshot shows the 'Configuration for project Jiraffe' page. At the top, there is a navigation menu with 'Add-ons', 'User management', and 'System'. Below the navigation menu, there is a 'Return to Projects' link and a bin icon in the top right corner. The main content area contains a 'Theme' dropdown menu set to 'Pirates', a 'Search for users' input field with a '+ Add' button, and an 'Insert users by group' input field with a '+ Add' button.

After that, you can select a theme to start the adventure.
